

Audit pack

One AI decision, recorded and signed, with the policy checks and evidence behind it.

TENANT	Northwind Financial (fictional)
SCOPE	One hiring screening decision made by an external AI system
PERIOD	2026-09-01 to 2026-09-30
RECEIPTS INCLUDED	1
PREPARED	2026-10-03T05:30:41Z

This pack shows the format only. It records what an AI system decided and what was checked at the time. It makes no claim that any decision was correct or fair.

Advanced applicant 4821 to the interview stage

Sample tenant: Northwind Financial (fictional).

RECEIPT ID	rcpt_349fc1626359
RECORDED AT	2026-09-16T14:32:07Z
DECISION TYPE	hiring screening
OUTCOME	advance to interview
REPORTED CONFIDENCE	87 percent, as reported by the source system
DECISION SOURCE	Vendor applicant-screening agent (recommender)
MODEL	GPT-4o on Azure, version 2025-04-01
OPERATED BY	External vendor system, not operated by Thursdai
POLICIES EVALUATED	NYC Local Law 144 candidate notice: pass; Personal data block: pass
EVIDENCE CONSULTED	JR-204; Hiring rubric v3; Application snapshot 2026-09-16
RISK TIER	high (EU AI Act Annex III)
HUMAN OVERSIGHT	Recruiting coordinator: recommendation followed
SHA-256	08ee8ec9c1299c42fad669bde4806418ae9231a3b3f5f2c2725ea396dce0ba0f

This receipt proves what was recorded and when. It does not claim the decision was correct or fair.

What was checked

Thursdai evaluated the decision against the policies below before recording it. Thursdai does not make the decision. The decision came from the source system named on the receipt.

NYC LOCAL LAW 144 CANDIDATE NOTICE	PASS. Notice of automated employment decision tool use was on file for the requisition.
PERSONAL DATA BLOCK	PASS. No direct identifiers were present in the material passed to the model.
EVIDENCE CONSULTED	
JOB REQUISITION	JR-204
SCORING RUBRIC	Hiring rubric v3
APPLICATION SNAPSHOT	Application snapshot 2026-09-16
RISK CLASSIFICATION	high risk under EU AI Act Annex III
HUMAN OVERSIGHT	Recruiting coordinator followed the recommendation

How to verify this receipt

HASH (SHA-256)	08ee8ec9c1299c42fad669bde4806418ae9231a3b3f5f2c2725ea396dce0ba0f
ALGORITHM	Ed25519 over the canonical JSON of the receipt
KEY ID	key_92a77ee6b869
SIGNED AT	2026-10-03T05:30:41Z
VERIFY URL	https://getthursdai.com/api/verify?id=rcpt_349fc1626359

1. Open the verify URL. A valid receipt returns its id, hash and signing time with valid set to true.
 2. To check independently, take the receipt object from the accompanying JSON file, serialise it with keys sorted and no whitespace, and compute its SHA-256. It must equal the hash above.
 3. Verify the base64 signature over those same bytes using the public key in the JSON file (public_key_pem).
- Any change to any field of the receipt changes the hash and invalidates the signature. A valid result proves what was recorded and when. It does not prove the decision was right.

SIGNED Ed25519 key_92a77ee6b869 2026-10-03T05:30:41Z
