

Audit pack

One AI decision, recorded and signed, with the policy checks and evidence behind it.

TENANT	Northwind Financial (fictional)
SCOPE	One hiring screening decision made by an external AI system
PERIOD	2026-09-01 to 2026-09-30
RECEIPTS INCLUDED	1
PREPARED	2026-10-02T19:32:43Z

This pack shows the format only. It records what an AI system decided and what was checked at the time. It makes no claim that any decision was correct or fair.

Advanced applicant 4821 to the interview stage

Sample tenant: Northwind Financial (fictional).

RECEIPT ID	rcpt_7f3a9c21b84e
RECORDED AT	2026-09-16T14:32:07Z
DECISION TYPE	hiring screening
OUTCOME	advance to interview
REPORTED CONFIDENCE	87 percent, as reported by the source system
DECISION SOURCE	Greenhouse screening agent (recommender)
MODEL	GPT-4o on Azure, version 2025-04-01
OPERATED BY	External vendor system, not operated by Thursdai
POLICIES EVALUATED	NYC Local Law 144 candidate notice: pass; Personal data block: pass
EVIDENCE CONSULTED	JR-204; Hiring rubric v3; Application snapshot 2026-09-16
RISK TIER	high (EU AI Act Annex III)
HUMAN OVERSIGHT	Recruiting coordinator: recommendation followed
SHA-256	c25024f7f1a57e668941a431fecc0d34090b36178c9da341cb80341d5d9f5fca

This receipt proves what was recorded and when. It does not claim the decision was correct or fair.

What was checked

Thursdai evaluated the decision against the policies below before recording it. Thursdai does not make the decision. The decision came from the source system named on the receipt.

NYC LOCAL LAW 144 CANDIDATE NOTICE	PASS. Notice of automated employment decision tool use was on file for the requisition.
PERSONAL DATA BLOCK	PASS. No direct identifiers were present in the material passed to the model.
EVIDENCE CONSULTED	
JOB REQUISITION	JR-204
SCORING RUBRIC	Hiring rubric v3
APPLICATION SNAPSHOT	Application snapshot 2026-09-16
RISK CLASSIFICATION	high risk under EU AI Act Annex III; legal basis EU AI Act Article 27
HUMAN OVERSIGHT	Recruiting coordinator followed the recommendation

How to verify this receipt

HASH (SHA-256)	c25024f7f1a57e668941a431fecc0d34090b36178c9da341cb80341d5d9f5fca
ALGORITHM	Ed25519 over the canonical JSON of the receipt
KEY ID	key_b2b188c336ed
SIGNED AT	2026-10-02T19:32:43Z
VERIFY URL	https://getthursdai.com/api/verify?id=rcpt_7f3a9c21b84e

1. Open the verify URL. A valid receipt returns its id, hash and signing time with valid set to true.
 2. To check independently, take the receipt object from the accompanying JSON file, serialise it with keys sorted and no whitespace, and compute its SHA-256. It must equal the hash above.
 3. Verify the base64 signature over those same bytes using the public key in the JSON file (public_key_pem).
- Any change to any field of the receipt changes the hash and invalidates the signature. A valid result proves what was recorded and when. It does not prove the decision was right.
